## LOYALTY

Loyalty means “faithful and committed to a person, place, group or cause.” Napoleon Hill, author of *Think and Grow Rich*, wrote; “Lack of loyalty is one of the major causes of failure in every walk of life.” Do you agree? When have you seen the demise of friendships, teams, businesses or communities due to a lack of loyalty? When have you seen the strengthening of friendships, teams, businesses and communities due to steadfast loyalty? Or, is loyalty overrated?

Lined writing area for the response.
